## HERNIMAN, ESTELL AND SPIECE ARE THE COUNCILLORS FOR NEXT YEAR

A great deal more interest was apparently, manifested in the local municipal elections than appeared on the surface, as the largest vote yet recorded turned out last Monday to elect Councillors for 1920. As a result of the vote, three new men will fill the positions for the ensuing year.

The result of the ballot:

R. M. Herniman.....54  
G. J. Estell.....48  
N. Spiece.....47  
H. J. Raymer.....43  
W. G. Walker.....33  
J. Glazebrook.....32

There were 143 names on the voters' list, 25 of whom were out of town, and 95 cast a vote, with one spoiled ballot.

Mr. Raymer, reeve for the present year, received all the "plumpers," nine voting that way. The vote was fairly well split up, no particular combination receiving an outstanding vote, although, if any, Messrs. Herniman, Estell and Spiece received a little the edge in this direction. A majority of the ladies, whose names appeared on the list, exercised their right to vote.

### Mirror Oddfellows Entertain

The members of the Mirror Oddfellows' Lodge were 'at home' to a crowd of some sixty invited guests in their lodge room last Tuesday evening, and a very pleasant time was spent by all. The entertainment consisted of a whist drive and the first prizes were won by Mrs. Geo. Thomas and R. M. Herniman, while Mrs. R. Conway and F. E. Murray carried off the "booby" prizes. The evening concluded with the serving of an oyster supper, the members of the Lodge looking after the preparation and serving of the supper, the ladies for once being guests in the true sense of the word.

The meeting of the Brotherhood of American Yeomen which was arranged for December 18th, has been postponed until some time in January.

### Christmas Tree Request

The officers and teachers of the Mirror Sunday School wish to announce that a Xmas Tree entertainment will be given in the Mirror Theatre on the evening of Tuesday, Dec. 23, 1919, to commence at 7.30 p.m.

All parents and friends are cordially invited. It is requested that parents do not place presents on the tree for their own children, but the school children may use the tree as a source of exchange of gifts among themselves, if they wish to.

### Mirror Principal Resigns

R. Leckelt, principal of Mirror school since September 1st, last, has tendered his resignation, the same to take effect on January 3rd. No reason is given by Mr. Leckelt for his action.

Although no meeting of the School Board has been held, the Sec.-Treasurer has been instructed by the members to accept the resignation, and the Board will immediately meet for another principal.

### Supply of Water for Rink

Work on the Mirror rink has been proceeding very slowly but the fence and building will be put up any day now. The delay was caused by the refusal of a G. T. However, this has now been granted and the rink should be under way before many more days of frost and scraper have packed the snow.

people to be reasonable, and to be guided by reason and not impulse. The danger against which Mr. Crerar warns people to be on guard is that of the "class" movement, and the most tragic expression in the ranks of organized labor, where large groups of men showed a willingness to desert their former leaders, and their great international craft unions, and follow ultra-socialist, even anarchist, leaders and their willful-the-way movement of the One Big Union. Here in the West organized labor can never close to deserting itself. It largely alienated the support of all reasonable men and women, and has created a division in its own ranks which it will take a long time to overcome.

## Timely Words of Warning and Advice

The addresses which, Hon. T. A. Crerar, former minister of agriculture and prospective leader of the farmers' party, recently delivered at a number of places in the West have a greater value and interest in this particular time than usually attaches to speeches from the political platform, and they are fully deserving of the attention which has been devoted to them, not only by the press, but the public generally.

The avowed object of the series of addresses by Mr. Crerar was to outline to the people of the cities of the West the main principles of the New National Policy, as promulgated by the Canadian Council of Agriculture, the policies in support of which the farmers are making impressive efforts to secure.

It is altogether probable that Mr. Crerar's series of meetings was also prompted by the fact that in the Cochrane by-election in Alberta Mr. Wood, the U.F.A. leader in that province, took the ground that the farmers' political movement was a distinctly "class" movement, and that he advocated other groups and classes organizing along similar "class" lines. This is in direct opposition to the policy of the Canadian Council of Agriculture and the leaders of the farmers' movement in Saskatchewan and Manitoba. The Grain Growers' Guide made haste to repudiate the views advanced by Mr. Wood, and Mr. Crerar in all his speeches was at great pains to impress upon his hearers the fact that the promoters of the New National Policy are far from encouraging a "class" movement, were openly and strongly opposed to such a course.

As yet, however, from their primary object in explaining the New National Policy to the people of urban centers throughout the West, the speeches of Mr. Crerar served a truly national service in that he gave utterance to timely words of warning and advice, addressed particularly to the farmers, but which have a much wider application. Quoting from a verbatim report of his speech at Regina, we find Mr. Crerar saying:

"In these changing times a great responsibility rests on the organized farmers of Canada. It rests on you because from the very accident of circumstances things you build dear are being discussed from one end of Canada to the other. It is a time when reason should guide your actions and course in every way. If you do not, and you are animated by impulse alone, this splendid edifice you have reared and the opportunity that lies ahead of you will be largely lost."

"I have observed in some quarters what I would term fair weather Grain Growers coming to the front. By that I mean not those who have been the first and best of the fight for ten years, but men who have been in the fight and go on, and when they see the tide of the movement rising strong, want to throw their lot in with it. You will not find the true and best counsellors among such men. If you did you would find them in the movement at the first." These words of warning and advice apply to more people than the farmers. There is a tendency in the present world unrest and upheaval, for people in all walks of life to break away from the tried and tested methods and leaders of the past and turn to something new. Changed conditions from what have preceded in the past are admittedly necessary. This is recognized on all sides, but the danger lies in the apparent willingness of many people to thoughtlessly act upon anything new, and of reacting to extremes. As Mr. Crerar declared in another portion of his speech, this is a time above all others for all

## Facts About Our Country

Has a Population Averaging Less Than One Man to the Square Mile

The area of Canada is 3,729,665 square miles. Population 8,200,000. Compared with the United States, Canada is greater in size than the United States, including Alaska, but has a population less than that in the three cities of New York, Chicago and Philadelphia.

One-half of Canadians live in towns. The produce of farms, forests, mines and fisheries are the output of a population averaging less than one man to the square mile.

The total area of land fit for tillage is estimated at 262,300,000 acres. In 1918, only one-sixth of this land (51,427,000 acres) was under crop. Of the 129,000,000 acres fit to farm in the 45,000,000 acres of land in Manitoba, Saskatchewan and Alberta, but 26,000,000 are under crop and 25,000,000 under livestock. There is room for settlers on 128,000,000 acres surveyed farm lands, including 25,000,000 still open for homestead entry.

A famous woman novelist was once asked why she had not married. "I have three things about the house," she said, "which repel me so strongly that I don't want to marry. The first is the character of the average man that I don't want any more of him."

"What do you mean?" her friend asked. "Well," the novelist replied. "I've got a dog that growls all the morning, a parrot that swears all the afternoon, and a cat that stays out all night."

There are twenty-eight pounds of blood in the body of an average grown-up person.

How U-Boats Were Trapped

How the novel device adopted by the British for the coordination of the efforts of travelers and submarines has just been divulged. A traveler would drag a submarine by a cable and maintain communication with it by telephone. When the traveler sighted a German U-boat the British submarine would slip its cable and attack the German boat before the surprised German could submerge or prepare to fight.

## Canada's Work For Soldiers

An army of soldiers trained thoroughly in the arts of peace constituted part of Canada's reconstruction work, and she is now fitting 19,200 disabled soldiers for the duties of civilian life. Col. Hugh Clark, M. P., parliamentary secretary, says that the investment of \$57,000,000 for the fiscal year, which makes it possible to offer a seven months course in vocational training to these men, is a national investment, since it encourages the disabled soldiers to become producers, and restores their independence. During the training course they receive from \$60 to 150 monthly.

## Got Him Wrong

Swine (pigs) had broken out in the village, and the local policeman had been appointed to call upon all owners of pigs and take particulars of each case.

Rapping at the door of an old cottage, he was confronted by a shrewish-looking woman, who curiously asked him what he wanted.

"I've called to see the swine," said the constable.

"He's out," snappily replied the woman, and banged the door.

The Tungsten State has come by far the largest importer of tungsten from Peru, taking the place previously occupied by Germany. The mineral, used for making the hardest steel, is mined by natives, washed out by hand and transported across the Andes on the backs of llamas and mules.

## Prize Shorthorn Cattle Change Hands

Sale Held By the Western Canada Shorthorn Breeders' Club

One hundred and two Shorthorn cattle brought a total of \$51,985 at the second annual sale held by the Western Canada Shorthorn Breeders' Club at Brandon, Manitoba, recently. The average price for females was about \$487 and \$810 for bulls. The highest priced animal was Lavender 47th, sold by John Barron, Carberry, Manitoba, a few days after Mr. Beech-ly, a C. G. H. of the same name, had purchased this latter heifer for \$50,000 for the same animal. Mr. Beech-ly, however, declined this offer, stating that he did not want to sell but bartered showing the heifer at the Chicago Livestock show, Star of Hope, judged grand champion at Brandon and Saskatoon summer fairs, was sold for \$2,500 to M. L. Nelson, of Midsale, Sask.

There was a great rivalry between Canadian and American buyers for the best animals. Canadian stockbreeders wishing to retain their prize stock for the improvement of their own herds.

## CHILDHOOD CONSTIPATION

Constipation is one of the most common ailments of babyhood and childhood and unless it is promptly cured will undoubtedly lead to disastrous results. To cure this trouble nothing can equal Baby's Own Tablets. They are a mild laxative which instantly regulate the bowels, sweeten the stomach, thus banishing colic, flatulence, etc., etc. Concerning them Mr. Eugene Vallinor, St. Mathieu, Que. writes: "When my baby was constipated I gave her Baby's Own Tablets and was well satisfied with the result. I would strongly recommend them to all mothers for this trouble." The Tablets are sold by medicine dealers or by mail at 25 cents a box from Dr. D. Williams' Medicine Co., Brockville, Ont.

# Will Force Germany To Sign The Treaty

Glasgow.—Addressing a political demonstration here, Andrew Bonar Law, Privy Seal and government leader in the House, alluded to Germany's "apparent attempt" to evade ratification of the Peace Treaty, and to the delay of the United States Senate in adopting it.

Mr. Bonar Law said that he spoke for the government, and he believed for the allies, in declaring that they had the power, and, if necessary, would exercise it to ensure ratification by Germany of the treaty.

Paris.—F. L. Polk, leader of the United States delegation to the peace conference, summoned Kurt von Lersner, chief of the German representatives at Versailles, on Monday, and told him that Germany should not interpret as being in her favor any delay that might be encountered in ratifying the Versailles treaty.

Washington, according to newspapers here, if there can be in the United States several ways of understanding the treaty, Mr. Polk is quoted as telling Herr Lersner "there are not two ways of understanding the obligations incumbent upon Germany nor the affection binding the United States and her allies."

## Prosecution of Ex-Kaiser

Sir Gordon Hewat Declares Preparations for Trial Continue

London.—Speaking at Postpry Palace, Sir Gordon Hewat, attorney-general, said the suggestion was made that there were no indications or waverings with reference to the coming trial of the former Emperor of Germany.

Those law officers, he added, were continuing most careful preparations for it. Fifty thousand written statements with reference to the matter of prosecuting criminals for their action during the course of war had been examined. From this, the speaker said, the evidence should appear of the magnitude of the task and not be confused by the suggestion that the matter was not receiving the closest attention.

Animals Suffer from Severe Cold Waves, Montana.—A lack of feed due to the protracted drought last summer, have caused the cattle by freezing and starvation of thousands of horses and cattle, according to ranchers.

Four weeks of stormy weather so far have caught many stockmen in a hopeless situation as far as caring for livestock is concerned, according to reports. Cattle left out in the open lack of feed in barns are reported freezing to death or the easy prey of wolves.

## 1,673 Smallpox Cases

Toronto.—According to the reports made to the board of health by municipal authorities throughout the province, there were 1,673 cases of smallpox during the month of November. Most of the cases occurred in the north, the smallpox figures here being 1,356.

So far this year there have been seven deaths from the disease.

# Farmers May Profit By U. S. Market

Winning.—With the lifting of the United States import embargo on wheat, which will become effective December 15, Canadian farmers will have the right to export their wheat to the Canadian wheat board, there will be a substantial increase over the guaranteed price of \$2.15, basis Fort William.

During the past few days No. 1 dark northern wheat has been sold on a par with Canadian No. 1 northern, has been sold at Minneapolis from \$3.20 to \$3.25, which is a dollar more than our guaranteed price. If Canadian wheat is permitted by the Dominion Government to enter the United States by the end of the year, it is likely to be expected that the high prices now prevailing for hard spring wheat will continue, but undoubtedly the Canadian board will be able to realize a substantial profit on every bushel sold on the United States market.

The information can be gathered from officials of the Canadian wheat board as to whether the government will attempt to take advantage of the high prices now prevailing at Min-

## Germany's Baltic States Effort Proving Futile

Are Now Being Attacked on Three Sides By Letts and Estonians

London.—Germany's adventure in the Baltic states may be considered ended militarily, according to the War Office summary of the week's events just issued.

"The situation of the Germans, who are being attacked on three sides by the Letts and Estonians, is critical," says the summary, "and it is hard to see how they can longer delay evacuation. Their retreat is virtually cut off, but it is assumed that they will be allowed to withdraw."

"Another threat of potential grave possibilities is Turkestan, where Bolshevik activities are reported to be increasing. The Tashkent government has sent a preliminary note to Merv (Russian Transcaspia, and it is also stated that Leonie (the Bolshevik agent), has disappeared from Moscow to spread Bolshevik propaganda. A number of these have gone to India, Persia, and the Far East."

"There are now no hostile forces between the Bolshevik and Afghanistan, where the Bolsheviks are spreading their propaganda vigorously."

"In South Russia the Bolsheviks made little progress during the past week, and Gen. Denikin's troops reported some victories. A strong counter-offensive on the right has gained a little ground, but driven the Reds back to within thirty miles of Kursk."

"Southwest of Kiev volunteers also have taken the offensive and recaptured Pustof and captured Pervof. The Bolshevik pressure has relaxed for the moment and their advance is becoming slower and less extensive. "The Bolshevik advance in East Russia continues along the whole of the front. In North Russia, there is little change in the situation, due to the winter, but the Whites have cleared virtually the whole of the Pitsa valley of the Bolsheviks."

## Hand Puts to St. Dunstan's

London.—William E. Johnston, the American anti-saloon organizer, for whom the Evening News opened a testimonial because of injuries received in a recent "ragging" by the students, has written to the paper asking that the money this raised be sent to the Danston hospital for the blind. ## Exchange of Prisoners

## Must Return to Farms

One Man on the Land Worth Twelve in Town

Reverton.—One man on the land is worth a dozen in other jobs, as John Kennedy, vice-president of the Toronto Grange, pointed out to the audience at the nomination meeting here, when Robert Henry Hackett, U.F.O., Ubridge, and Neil D. Macdonald, Canadian National, were nominated to contest in the federal election of December 9, the constituency of North York, Ontario. He said the death of Col. Sam Sharpe, Mr. Kennedy told the audience that independent political action was the watchword of the Grange.

"The light is in the window, the latch string hangs outside, and the workers of Canada are welcomed there," Mr. Kennedy said.

## Villa Captured by Owa Men

Will Be Turned Over to Carranza on Payment of Reward

Juarez.—Francisco Villa has been captured by a force of his own men and is being held for a reward from the Mexican government, according to advices received here by Superintendent Cabel of the Chihuahua division of the National railways in Mexico.

Two Villa rebels are reported to have presented themselves at federal headquarters at Parral and notified the commander there that Villa had been captured and was being held for surrender to the Carranza forces. The state of Chihuahua has already offered \$10,000 pesos as a reward.

## Germany Refuses To Sign Protocol

Delay of U.S. Said to Have Caused Change in People's Opinion

Paris.—Germany has decided not to sign the protocol presented for her to ratify as a condition for putting the peace treaty into effect, the peace treaty has been notified.

It was learned that Baron Kert von Lersner, head of the German delegation here, called on Secretary Daniels of the conference, and told him that Germany had made such a decision.

This attitude is taken as confirming the reports of a sharp reaction in Germany within the last fortnight. Trained observers of German developments have expressed to members of the peace conference the view that there has been a complete transformation of the situation in Germany since the last fortnight. In their opinion, by the failure of the U.S. Senate to ratify the treaty.

These observers declared that while the vast majority of the Germans, before the senate's adjournment, desired the peace treaty ratified as soon as possible, they are now opposing the government's attitude in resisting the demands of the allies for indemnity for the sinking of the German fleet in St. Peter's Bay, recognizing the fact that there has been a complete transformation of the situation in Germany since the last fortnight.

This fact, it is stated, no indications have reached Paris of any disposition on the part of the Germans to modify their attitude.

## Will Dispense With Show

Simple Ceremony to Mark Inauguration of Farmer-Labor Regime in Ontario

Toronto.—The pomp and display which age-old customs have fastened upon ceremony that marks the opening of the Ontario legislature are to be done away with by the United Farmers-Labor government.

At the next session of the legislature most of the formal and show of the atmosphere of social exclusiveness which in the past has been characteristic of the ceremony attendant upon the opening day of the house will be dispensed with.

In place of the pomp and display of the government will be more in line with the temperance of the people of this province, which carried them to power, will mark the first day of each legislature. In February, the booming of cannon, the attendance of governor and officials in general in court uniforms of other days, the presence of a throng of officers in full military regalia, and of women in jewels and finery, will be lacking. The occasion will be simple and unostentatious.

In comparison with the glory, pompousness and formality of former years it will be markedly sober.

## Unionists to Tour United States

Delegates Reach U.S. to Protest Against Sinn Fein

New York.—Seven members of the United Unionist council arrived here on the steamer Columbia, to set forth to Americans their views on the Sinn Fein movement. The delegation consisted of Wm. Coote, a member of parliament, and the Reverends Wm. Crooks, Wm. Blue, Wm. Corley, E. Harle and E. Maguire. The party will leave New York Sunday on a speaking tour. A committee of Presbyterians from New York, New Jersey, Connecticut and Pennsylvania welcomed the delegation, which included three clergymen of that denomination.

The methods of the Sinn Fein were likened to those of the Bolsheviks by Americans. It is stated that the press they said they had come to the United States to protest against the arrest of Sinn Fein propagandists. Six of the members of the mission are clergymen.

We are here in the interests of law and order, of truth and honesty of Americans their views on the Sinn Fein movement. The delegation consisted of Wm. Coote, a member of parliament, and the Reverends Wm. Crooks, Wm. Blue, Wm. Corley, E. Harle and E. Maguire. The party will leave New York Sunday on a speaking tour.

Our mission is not sectarian. We raise no religious issue. Our mission is to say in America that the Sinn Fein movement in Ireland, which is spreading its propaganda in America, is not a solution of the Irish question. It is a radical and destructive method; that it is conducting in Ireland a campaign of coercion, threat and assassination, and that it is not supported nor respected nor by the better class of people in Ireland, whether Catholics or Protestants.

Rome.—Ten persons died, more than one hundred were wounded, and more than a thousand under arrest since the result of the general strike in Italy called by the Socialists as a result of the demonstrations against them in Rome on the re-opening of parliament. In addition, schools were sacked in Milan.

Revolutions over the strike had spread throughout the country. Nat-wid spreading this, however, and contrary to the announcement made in the chamber by Socialist Deputy Treves that there would be a cessation of the strike at midday Thursday, a small element of the Socialists imposed a continuation of the walk out in Rome as a sign of mourning for the Socialist Zampini, who was killed during the disorder in the capital.

Socialists and anarchists, carrying flags and banners, participated in the funeral of Zampini Thursday. Fortunately, the hospital where the body had been taken is situated on the outskirts of the city, and therefore it was not necessary for the funeral to enter the central quarters of the city and reach the centre.

In addition to the funeral display with red and black flags, a large number of Socialists and anarchists carried a principle to protest against the pernicious propaganda which is being spread in your country in relation to Ireland, says the statement.

## Coal Situation is Serious

Magrath Makes Strong Appeal to the People for Conservation

Ottawa.—The fuel situation in Canada was never as grave at any time during the war as it is at present, declares Mr. Magrath, Dominion fuel commissioner, in an appeal to the public for fuel conservation, issued Wednesday.

His attention to the fact that Canada has received practically no soft coal during the month of November, he said, was a very serious day, which has been made, is extremely small as compared with normal supplies. From present appearances, he says, all that can be expected is to keep the public with fuel and instructions supplied with fuel and instructions to conserve the domestic means. Many industries may have to close down before we are well into the winter.

Mr. Magrath draws attention to the fact that he could call upon the government to pass regulations, limiting the use of fuel, as was done during the war. He believes, however, that an appeal to the public setting forth the gravity of the situation will result in the fullest possible response and he therefore resorts to this means.

### To Intending Subscribers

It is on papers to only bona-  
fide subscribers that publishers  
are extended a reduced rate of  
postage. On sample copies going  
out to non-subscribers the  
cost of postage is quite prohibi-  
tive. And as publishers are re-  
quired, from time to time, to pro-  
duce for inspection by the P. O.  
department, receipt duplicates  
or stubs, showing those subscri-  
bers paid in advance, it is quite  
impossible to get away from the  
higher rate of postage on  
papers mailed to non-subscrib-  
ers.

As a great many on our mail-  
ing list have not as yet subscrib-  
ed, we earnestly request them  
to do so at an early date, that is,  
if The Journal meets their ap-  
proval, and they intend to be-  
come regular subscribers. It is  
not our intention to mail the  
paper to anyone, other than  
paid-in-advance subscribers,  
longer than a couple of weeks.  
As a matter of fact, we could  
not afford to do so. Those who  
intend to subscribe for The  
Journal and wish to receive every  
copy, will confer a favor, by de-  
positing with the editor \$1.50  
at an early date.

### Soldiers In Want

London, Dec. 3.—The Cana-  
dian Associated Press learns that  
an informal census has been  
taken regarding the Canadian  
soldiers who have taken their  
discharge and now find them-  
selves in want. The total num-  
ber who seem genuinely anxious  
to be returned to Canada thro-  
ugh want of work here appears  
to be about 400, although there  
may be more who have not pro-  
claimed themselves stranded.

## A Visit to the Rider Place On Vancouver Island

Many of our readers will be  
interested in the following de-  
scription of a trip to Thos. and  
Mrs. Rider's place at Parksville.  
B. C. former well known resi-  
dents of this district, the letter  
coming from the Holland's,  
who visited the Riders' estate  
in California :

"On Thursday morning, Nov.  
27th, we took the train up the  
Island to Mr. Rider's, (102 miles  
from Victoria), a very pretty  
run; country is lovely just  
now; really large places, Dun-  
can, Nanaimo and Ladysmith,  
but villages and little towns  
every two or three miles. Mr.  
and Mrs. Rider met us at the  
station. They are both look-  
ing so well and younger, and  
both have quite a good color.  
They have an ideal place for  
them here, longshore facing the  
Strait of Georgia and looks out  
on two large islands beyond  
which you can see the snow-  
capped mountains of the main-  
land. They are about 260 feet  
above sea level; it is sandy  
and gently sloping; there is a  
thirteen foot tide, and at low  
tide you can walk out a long  
way. Also there is a large clam  
bed which can be easily re-  
ached at low tide. The fishing is  
good, they catch salmon, her-  
ring, cod, all salt water fish,  
of course. Then just a mile be-  
low them is the Qualicum river  
where there are splendid trout.  
There is another river six miles  
north just about the same size.  
It was quite warm there, not  
much frost, just a very, very  
thin ice one night; the gerani-  
ums and stocks are not frozen  
yet. The roses are full of buds  
but it is too cold for them to  
bloom; they had roses until  
three weeks ago. The woods  
are just thick with sword ferns,  
so lovely and green. In his  
garden, Mr. Rider has straw-  
berry plants, raspberry, logan-  
berry and gooseberry bushes,  
red, white and black currants,  
peach, pear, cherry (preserving  
and eating), plum (Pond's seed-  
ling, yellow, egg and Italian  
prune), quince, apple (Delicious,  
Yellow Transparent, Wagner,  
Macintosh R. d., Spitzburg  
and umpteenth other kinds just  
beginning to bear), and crab  
apples. He is planting out  
grape vines and more fruit trees  
in the spring or rather in a few  
weeks as soon as they come.  
He has an asparagus bed, had  
more cucumbers and tomatoes  
than he knew what to do with.  
The beets, carrots, turnips and  
cabbage they leave in the ground  
and use them right out of the  
garden. They have two cows,  
and of course, chickens. Eggs  
are \$1.00 out there now and  
\$1.25 here in Victoria. They  
have all their own wood, enough  
to last for 100 years or longer.

The Lacombe property was  
leased for a period of three  
years, so the Bunnell Bros. suc-
